### • CURRENT POSITIONS

2008 – Pres.    Senior Researcher, Institute of Philosophy, Czech Academy of Sciences, Prague,  
                  Czech Republic (<http://www.flu.cas.cz/en>). Main job.

At the Institute, I started as a post-doc at the Department of Contemporary Continental Philosophy (<http://oskf.flu.cas.cz/en>), continued as a researcher in 2010 - 2014, and from 2014 I work as a senior researcher and a senior group leader (2 post-docs, 1 graduate student). My current research group has been formed around my (as P.I.) research project “Methodological Precedence of Intertwining”.

2016 – Pres.    Associate Professor, Department of Political Science and Philosophy, Jan-  
                  Evangelista-Purkyne-University, Usti nad Labem, Czech Republic (part time job).

I teach part-time at this university (4 hours a week: phenomenology, philosophy of art), and participate at Ph.D. studies (theory of art education; political philosophy - in preparation).

Previously, from 2000, I lectured here in different positions (2000-2007 senior lecturer, 2007-2016 assistant professor).

The purpose of this big E.U. - EDF project (<http://corona.ujep.cz/o-projektu> - alas, the web-page is only in Czech) was to gain excellence in disciplines related to art (including theory and history of art, art education, aesthetics, and theory of design). 2014 - 2018    Principal Investigator, Team Leader (2 post-docs, 1 graduate student), Czech Science  
                  Foundation, research grant “Methodological Precedence of Intertwining”.

I directed this interdisciplinary research to prove the applicability of Merleau-Ponty’s conception of “intertwining” in anthropology/cognitive science. I have formulated a novel “transitive-topological model of phenomenology” (TTM). The project concluded by two books in English (first philosophical on TTM, the other by a member of the team who applies TTM in a ground-breaking account of

psychedelic experiences).

2016 – 2017 Fulbright Scholarship, Visiting Researcher, Department of Political Science, University of California Los Angeles, USA (6 months).  
<https://www.cies.org/grantee/martin-nitsche>

I conducted primary research in my Fulbright-project entitled “Field of Mutuality: Phenomenological Topology in the Transdisciplinary Framework of Current Political Science”. I closely cooperated with prof. Davide Panagia from UCLA.

2009 - 2011 Principal Investigator, Czech Science Foundation, Post-doc research grant
