The conference is organized under the auspices of the National Electronic Information Consortium NEICON and the Ministry of Education of the Russian Federation as part of the Government support of the development program of the journal “Horizon. Studies in phenomenology”. It is part of the Federal Target Program “Research and development on priority directions of the scientific-technological complex of Russia for 2014–2020” (State contract d/d 13.08.2014 № 14.597.11.0003 (ГК))

Dear Participants!

Let us warmly welcome you all as participants of our international conference entitled

“CLASSICAL GERMAN IDEALISM AND PHENOMENOLOGY”

As follows from the name of the conference, we will be dealing with the thought of the main representatives of the classical German idealism in so far as it is connected with the phenomenological thought. The objectives of the conference include, among others, an attempt to make sense of the noteworthy parallelism in the development of the German idealism and phenomenology: from essentialism and subjective idealism to the problem of being and facticity. A special focus will be given to the possibility of making a productive use in phenomenology of the branch of idealism which was identified by Husserl as “Romantic idealism” (Hegel, Schelling). Remarkably, the founder of contemporary phenomenology himself did not deny the significance of this branch of idealism for phenomenology.

It is a great privilege for us to host this remarkable event, which brings together more than 20 distinguished researchers from different countries.

We wish you all a nice and fruitful time in St. Petersburg!

The conference will run all day on Monday and Tuesday.

Publication of the Abstracts

A leaflet containing the abstracts (“Book of Abstracts”) will be distributed during the conference.

Publication of the Conference Papers

The Editorial Board of the journal “Horizon. Studies in phenomenology” is planning to edit a special issue of the journal devoted to the proceedings of the conference.

All the participants are asked to submit the original texts (not published previously) of their conference papers no later than on **October 1, 2015**.

For detailed information concerning formatting guidelines, please consult the website of the journal: www.horizon.spb.ru

Further Practical Information

The Russian currency is Ruble (RUB). At the time of writing, the exchange rate fluctuates around 1 EUR = 72 RUB (or 1 USD = 65 RUB). Please note that exchange shops at the airport or in railway stations are notorious for offering unfair exchange rates.

Visa and MasterCard credit cards are almost universally accepted. Acceptance of other cards may vary.
